

## Family 69. SANTALACEAE

### Literature:

Danser, BH. 1940. *Nova Guinea n.s.* 4: 133-149.

Pilger, R. 1935. *Santalaceae* in Engler, *Natürlichen Pflanzenfamilien* ed. 2, 16b: 52-91.

### 1. *Dendromyza* Danser

***Dendromyza reinwardtiana*** (Blume) Danser, *Nova Guinea*, nov. ser. 4 (1940) 133

**var. *aphylla*** Stauffer

*Henslowia lobbiana* A DC, *Prodr.* 14 (1857) 631; --Merr., *EPFP* 2 (1923) 114.

Peninsular Malaysia, Penang.

LUZON: Benguet, Bataan, MINDANAO. On trees in forests, usually at médium altitudes but ascending to 1400m.

### 2. *Dendrotrophe* Miquel

***Dendrotrophe varians*** (Blume) Miq., *Fl. Ind. Bat.* 1 (1855) 780; --Soejarto et al. (1995) Prelim.

Checklist Fl. Pl. Palawan.

*Henslowia palawanensis* Elmer, *LPB* 5 (1913) 1834.

**Extra-Philippine distribution?**

PALAWAN. Lowland thickets.

*Henslowia* Blume =*Dendrotrophe*

### 3. *Exocarpos* Labillardiere

#### Revision:

Stauffer, HU. 1959. *Revisio Anthobolearum*. *Mitteilungen aus dem Botanischen Museum der Universität Zürich* 213: 117-260.

***Exocarpos latifolius*** R Br., *Prodr.* (1810) 356; --Merr., *EPFP* 2 (1923) 114.

Java to New Guinea and Australia.

LUZON: Ilocos Norte, Pangasinan, Zambales, CULION, PALAWAN, SIBUTU, JOLO, BASILAN. Lowland dry thickets and forests.

***Exocarpos longifolius*** (L.) Endl., *Ann. Wien. Mus.* 1 (1836) 167, *pro parte*.

*Exocarpos rolfeanus* (Kuntze) Merr., *PJS* 4 c (1909) Bot. 253.

**Extra-Philippine range?**

PALAWAN. Forests up to 300m.

*Exocarpus* =*Exocarpos*

### 4. *Thesium* Linnaeus

1. *Thesium psilotoides* Hance, *J. Bot.* 6 (1868) 48; --Merr., *EPFP* 2 (1923) 115.
