

## Family 8. TYPHACEAE

### Revision:

Backer, CA. 1951. *Typhaceae*. Flora Malesiana series 1, 4: 242-244.

### 1. *Typha* Linnaeus

***Typha angustifolia*** L. (*sensu latissimo*), Sp. Pl. (1753) 243; --Backer, Fl. Males. ser. 1, 4 (1951) 243, Fig. 1.

*Typha angustifolia* L. ssp. *javanica* Graebn. in Perkins, Frag. Fl. Philip. (1904) 42; --Merr., Fl. Manila (1912) 66;

*Typha capensis* Rohrb., Verh. Bot. Ver. Brandenb. 11 (1869) 96; --Merr., EPFP 1 (1922) 8.

*Typha dominguensis* Pers., Syn. 2 (1807) 532; --Merr., EPFP 1 (1922) 8.

*Typha shuttleworthii* Koch & Sonder in Koch Syn. ed. 2 (1844) 786; --Merr., EPFP 1 (1922) 8.

Temperate and tropical areas of the world.

Notes: Briggs and Johnson [Contr. NSW Nat. Herb. 4 (1968) 57-69] maintains that what is known as this species in Malesia and Australia are actually made up of 2 entities: *T. dominguensis* Pers. and *T. orientalis* C Presl
